# DEEPANSHU GULIA

## MERN STACK DEVELOPER

## PROFILE

1. Full Stack developer with a strong focus on problem-solving and developing complex projects.
2. Extensive experience with frontend development, dedicating 80% of efforts to frontend and 20% to backend.
3. Successfully improved website performance and significantly reduced loading times.
4. Contributed to projects built with React.js, React Native, Electron.js, and Next.js.
5. Passionate about creating high-performance web applications and delivering innovative solutions.

## WORK EXPERIENCE

### Anzo Controls

Mar, 2023 - Present

MERN Stack Developer

- Developed the frontend of 3 robot operating software on React.js.
- Took lead role as web designer for software designing, using figma tool.
- Leveraged Three.js for 3D rendering within the robot software, enhancing the visual representation.
- Implemented Blockly to facilitate a no-code IDE in software.
- Contributed to the Orient Fans performance monitoring software as a Full-Stack developer.
- Contributed to an inventory management Android application built on React Native.

### Bottom Funnel

Aug, 2022 - Mar, 2023

MERN Stack Developer

- Collaborated with a design lead to iterate on various web pages using React.js.
- Led the transition of the website framework from React.js to Next.js.
- Improved website loading speed, achieving a 20% enhancement in performance.
- Worked as a frontend developer (80%) and backend developer (20%) on the Travelflap project.

## LIVE PROJECTS

### Travelflap Website

Backend Developer | Bottom Funnel Projects | October, 2022 - Mar, 2023

- Developed and integrated third-party APIs for the Travelflap website using node.js, Express.js and MongoDB.
- Added express validation on APIs to prevent any potential errors or security issues.

### Bottom Funnel Website

Frontend Developer | Bottom Funnel Projects | October, 2022 - Mar, 2023

- Developed a fully custom-made static website with a unique design and layout tailored to specific requirements.
- Ensured the website is fully responsive, adapting to various screen sizes, and providing a seamless user experience on all devices.
